RUSSIAN MONGOLIAN HAIR COLOUR CHART

PLEASE NOTE: SLIGHT DEVIATIONS IN COLOUR ARE INEVITABLE DUE TO PRINTER SETTINGS. IT IS ADVISED THAT YOU PURCHASE THE CROWN COUTURE COLOUR RING FOR ACCURATE COLOUR MATCHING.

RUSSIAN MONGOLIAN - MINI STICK TIP COLLECTION

REMY HAIR | DOUBLE DRAWN | 16", 18" & 20" LENGTHS | 0.8G - 16", 1G - 18" & 20" PER BOND

Particular attention has been paid by CrownCouture to produce a custom bonding stystem. Hair extension mini stick tips have been produced to fit with our very own CrownCouture INVISILOCKS, meaning this hair system will provide one of the most secure hair extension systems on the market.

The INVISILOCKS system is based on the traditional microring technique but has been developed further to produce a smaller, flatter and more secure bond. Available in three sizes, the rings ensure a perfect fit with each and every strand.

Our INVISILOCKS are amongst the smallest and most subtle hair extension bonding techniques available. The locks are available in a variety of natural root colours, allowing the bond to blend in with the natural hair colour creating a flawless finish.

This method is free from glue, heat and potentially damaging chemicals which can endanger the health of the natural hair.

INVISILOCKS installation and removal is extremely straight-forward. The locks will essentially 'clamp' the extensions securely in the hair and will stay put even during physical activity including swimming and rigorous exercise.

"The INVISILOCKS method is the best method of attachment I have ever had. It is so flat and natural looking and the bonds stay put for months"

All of our mini stick tips are bonded using the highest quality Italian Keratin glue. This is done to ensure that the bond does not break down prematurely, causing hair to shed whilst installed. With correct after care, the tips on each strand should stay intact through more than one installation.

The individual weight of each strand has been designed to give the wearer a fuller finish whilst still maintaining a safe weight. This will ensure no unnecessary stress is placed on the natural hair. With CrownCouture hair we ensure you are getting more hair per strand.

Each pack of stick tips contains 25 bonds of double drawn hair. The smaller packs allow the hair extension professional to use as many different colours as is necessary to achieve a perfect colour blend.

RUSSIAN MONGOLIAN - WEFT COLLECTION

REMY HAIR | DOUBLE DRAWN | 16", 18" & 20" LENGTHS | 100G PER WEFT

CrownCouture hair wefts are designed to ensure maximum thickness and comfort for the wearer.

The hair is thick from root to tip, guaranteeing maximum fullness and body. CrownCouture hair wefts are all manufactured with a double weft meaning there is double the amount of hair on every section along the length of the weft, creating a fuller, thicker finish. By manufacturing the hair in this way, we also reduce shedding from the weft whilst installed.

Our hair wefts offer hair extension versatility. They are most commonly used for extending or transforming the natural hair using the weave-in or micro-weave techniques, but the wefts can also be used for creating a set of luxury clip-in extensions. All of these attachment methods are completely free from glue, heat and potentially damaging chemicals which can endanger the health of the natural hair.

DOUBLE WEFTED FOR EXTRA DURABILITY & THICKNESS

DESIGNER BALAYAGE

NOW AVAILABLE

Creative Director, Nikki Martes, has recently developed CrownCouture's very own Designer Balayage Range using four of our most popular colour blends.

With beautiful natural root stretches, the range includes various mixed shades from brown to ash blonde. These colour blends will create a beautiful, sun-kissed colour result which adds depth and dimension to the hair.

VIRGIN BRAZILIAN COLLECTION

REMY HAIR | DOUBLE DRAWN | 14", 16", 18", 20", 22" & 24" LENGTHS | 100G PER WEFT

Our award winning VIRGIN Brazilian hair range is fast becoming one of our most popular hair types.

The raw hair is always sourced directly from young healthy donors ensuring that the raw hair is in the best condition possible.

The beauty of the VIRGIN hair range is that it comes in it's natural state i.e uncoloured and untreated. As the hair has not been treated in any way, this makes the hair suitable for colouring where necessary. This allows the stylist more versatility. All the Virgin hair comes in a very dark brown/natural black shade.

Our VIRGIN hair range comes in a natural straight texture.

The VIRGIN Brazilian hair range is available on a double weft which contains 100g of hair per bundle. All Brazilian hair is double drawn meaning that the ends will give the wearer the ultimate fullness.
